IWG Meeting  
March 10, 2015  
4:00 pm  

Kevin Duff, Rob Fritz, Morgan Johnston, Ben McCall, Lowa Mwilambwe, Drew O’Bryan, Matthew Tomaszewski  

Carbon Neutrality by 2035?  
- F&S objection regarding financing this, not sure how to afford doing it by 2050; and now we want it done by 2035…  
- Preference to avoid offsets, rather invest in infrastructure  
- Leave it at 2050 and investigate the potential to do it by 2035  
- Commitment vs. goal, establish a committee  
- What group of people; if not this group? What about SWATeams? Or a consultation group? Draft something (who? Morgan?) for Al’s review.  

Possible Scenario; Potential instead of possible?  
- Move it to the end/conclusion? It could take the place of the unwritten conclusion?  
- What’s the harm? It’s nice to have something positive at the beginning.  
- A potential scenario will be presented in future Chapter?  
- Is it really a conclusion? It doesn’t cover each of the chapters.  
- It’s like an epilogue…  
- Reasonable way forward? See Ben’s note.  

Campus Clean Energy Plan  
- Not in the purview of iSEE to set capital investment strategies with regard to campus energy  
- The scenarios presented in the Utilities Production and Distribution Master Plan – none of them come close to carbon neutrality by 2050; they do, with carbon offsets.  
- Is this a new directive?  
- F&S owns the responsibility of the plan, and the implementation  
- What is the process for engaging stakeholders and other creative input?  
- This is intended to be a framework or recommendation, needs language that indicates is it a recommendation, currently reads as a dictate.  
- A group that prepares a vision or possible pathways can assist F&S in decision making process including research, analysis, faculty, staff, is orders of magnitude different that how it reads now.  
- This could be re-framed as a feeder into the Utilities Master Plan.  
- Invite Al, Kent, Mike L, Scott W.  
- If we want a good document with buy-in then we need to take the time to get it right.  
- Language matters.  

Adjournment 5:20 pm.
