RE: PWR005 Zero Waste Coordinator

Hello iWG,

We recently completed the five-year update to the University of Illinois at Urbana-Champaign's Waste Reduction Plan, per State of Illinois requirements. This document reaffirms our commitment to waste reduction efforts for campus. It is available online at <http://icap.sustainability.illinois.edu/project/waste-minimization>.

Funding availability for hiring additional staff, i.e., a Zero Waste Coordinator, is not currently known for FY16 and beyond. Therefore, we will do what we can with the existing staff, the assistance of the SWATeam and iSEE staff, and continued coordination with ISTC. Funding support from the Student Sustainability Committee has also been very helpful in the efforts underway.

As more information becomes available for funding opportunities for such a position, I will keep the iWG and the SWATeam informed. Please let me know if you have any questions.

Thanks,

*Morgan B. Johnston*
