Purpose of the Certified Greener Campus Programs

Promotion and Engagement of Sustainability Across Campus

- We provide the guidance, information, and resources necessary to demystify sustainability.
- We strive to make our program flexible, interactive, and beginner friendly – and encourage everyone to take part!

Meet the iCAP 2020 Goals

ILLINOIS CLIMATE ACTION PLAN

2020

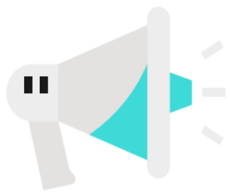

Current

WHY CERTIFY?

What are the benefits? How can certification support the goals of your office?

Promote

Certification shows others — prospective staff, clients, and peers — that your office is actively working to better itself and run sustainably.

Save Money

Many of the small efforts to meet actions — such as turning off lights and reducing water use — save you money! Win-win!

Encourage Participation

This program provides members with new opportunities to contribute to the office environment through new positions and committees to manage the chosen goals.

Make an Impact

The overall goal of the program is to encourage sustainability — you can have a part in improving campus life!

Certified Green Office

Elective Action Groups

Select at least 8 activities from within these groups.

05

Green Office @ Home

Incorporate sustainability efforts at home.

04

Innovation

Have a new idea? Tell us about it!

03

Waste Reduction

Reduce, reuse, recycle!

02

Water Conservation

Conserve water.

01

Energy Conservation

Conserve energy and heat.

Certified Green Chapter

Elective Action Groups

Select at least 5 activities from within these groups.

05

Innovation & Engagement

Your ideas matter - let us know!

04

Transportation

Strive to walk, bike, and carpool more.

03

Waste Minimization & Recycling

Reduce, reuse, recycle!

02

Utility Conservation

Conserve energy, water, and heat.

01

Food & Dining

How to green your kitchen and diet.

Certified Green Event

The CGE is designed for many different campus entities, to help bring sustainability to make RSO meetings, holiday parties, trivia nights, and other campus events more sustainable. Choose elective actions from the following categories:

- Transportation
- Energy Conservation
- Waste Reduction
- Food & Dining
- Innovation

Time for questions!

Please add comments to
the chat box or unmute
your mic.

2020 Successes!

- Department of Chemistry Administrative Office, Gold
- Department of Communication, Gold
- Zeta Beta Tau, Gold
- Triangle Fraternity, Silver

2020-21 Certified

- Prairie Research Institute
- Illinois Sustainability Technology Center (ISTC)

Response to COVID

iSEE now conducts all participant communication via email or Zoom and no longer require in-person visits.

We recognize certifications in the weekly iSEE E-newsletter, write a feature on our website, and help promote your achievements!

We now have a **Green Office @ Home** category for CGOP!

Time for questions!

Please add comments to
the chat box or unmute
your mic.

Time for discussion!

You will be sorted into breakout rooms, please discuss potential barriers and solutions with your groupmates.

Final Thoughts?

Conclusion

*Any
Questions?*

Every effort
counts when it comes to making
our campus greener, and we are looking
forward to certifying YOU as green!
